

AirLiner

Making Air Travel
More Convenient
and Efficient

Boarding planes is a pain.

The average boarding time is supposed to be 30 mins, but honestly it feels like much longer!

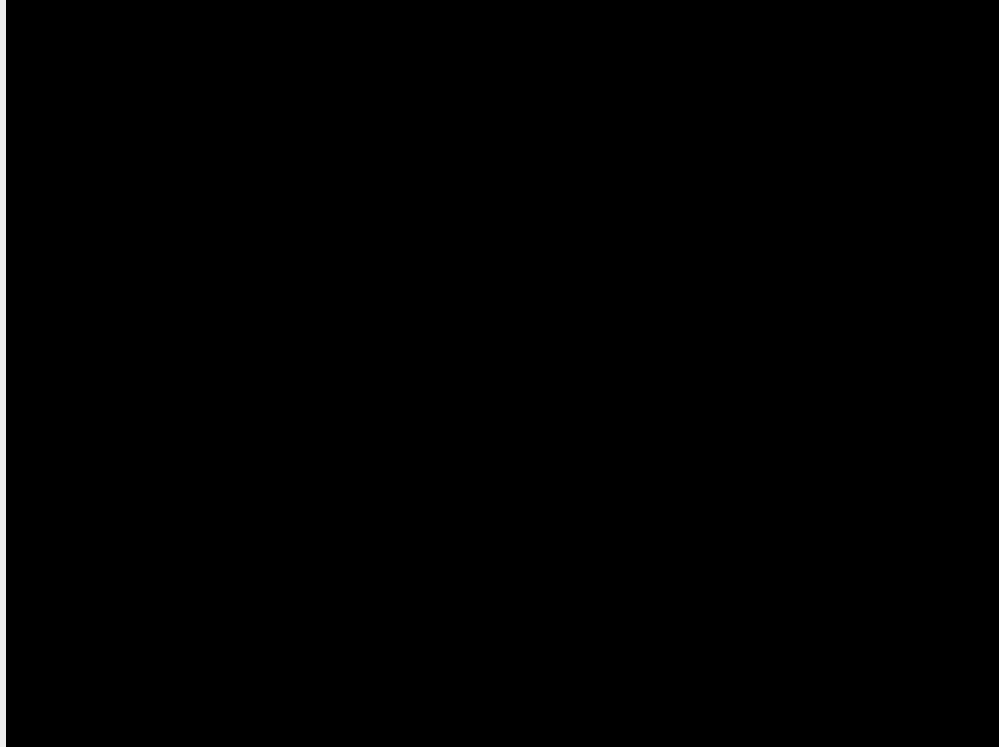

Lisa, 20

I hate how it takes so long to find my seat and put my bag in the overhead! It's inconvenient for me and everyone else in line behind me.

Andrew, 19

AirLiner

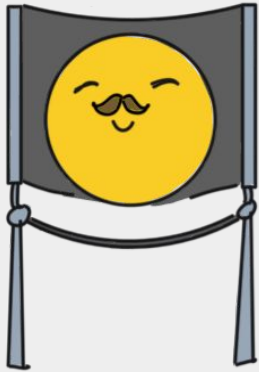

We want to make airplane boarding more efficient and convenient by streamlining the queuing process, ultimately improving the global air travel experience.

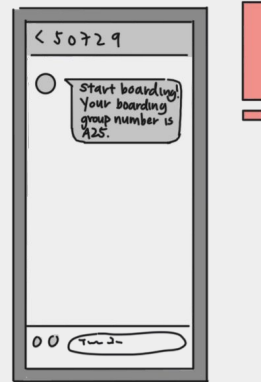

Your Time Matters.

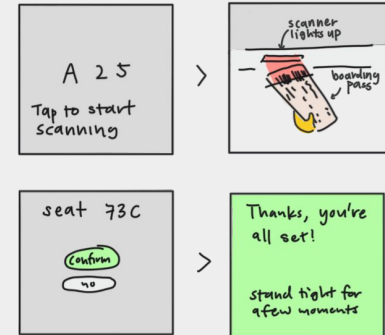

Wait at your gate
with boarding pass

Order Matters.

Since the AirLiners order guests in the quickest boarding sequence, the boarding process is simpler and faster.

There's pretty much no wait time from getting in line to settling into the plane!

Gina, 21

The scanning system is simple and makes getting in line a lot more organized!

Kenny, 20

I appreciate the notification system because it helps me plan out my schedule better.

Lily, 20
